

MP3 Digital On-Hold Audio System

For Use With Analog & KSU-less Phone Systems

MP3 Digital On-Hold Audio Player With Multi-Track CD Autoload

the
ULTIMATE
in On-Hold Audio!

Truly the ULTIMATE in on-hold audio, this unit can literally handle almost anything you throw at it. Whether you have your on-hold messages on an audio CD, MP3 CD, SD memory card, or on your PC, this system can do it all. And, like all of our other systems, it's very easy to use!

It works with virtually all analog and popular KSU-less phones. The system also includes hold music activators that provide "true" hold button activation of your on-hold audio when connected to the handset cord of each phone.

Features

- **Built-In Analog Phone Adapter Module** - Add music-on-hold to conventional analog and KSU-less telephones with up to 4 lines and 50 station sets. Works with all types of phones... even cordless.
- **Digital Flash Memory** - 128MB of on-board flash memory stores over 173 minutes (sampled at 98kbps) of awesome-sounding content. Additional Secure Digital card (not included) can add over 70 hours of content for continuous playback (1GB SD card).
- **Integrated CD Mechanism** - Quickly and easily record high quality audio from an Audio CD or MP3 CD. CD media is easy and inexpensive to duplicate and distribute.
- **CD Autoload** - Drop in a CD with a single track, close the lid, and the unit automatically records the content.
- **USB Connection** - Connect to your PC via USB to add new content or update firmware.
- **PC Connection...strictly optional** - Unit uses PC only to update content stored in flash memory. Updated content can optionally be added by copying an MP3 or WMA audio file to a Secure Digital (SD) card without the unit ever being connected to a PC or network.
- **Auto-start after Power Loss** - If power to the unit is lost, unit immediately returns to continuous playback with all settings without human intervention.
- **LCD Control Panel** - 6-line backlit LCD panel displays ID-3 tags with descriptive names of tracks for easy identification and selection. Display also shows a variety of important information so user can choose playback preferences and easily determine unit's operational status.
- **Built-In Monitor Speaker** - Allows user to monitor sound with the flip of a switch.
- **Wall Mountable** - Unit can be mounted, played and recorded in a vertical position.

Integrated Analog Phone Adapter Module

Built-in module allows the unit to provide on-hold audio capability to standard analog and KSU-less phone systems with up to four lines.

MP3 Digital On-Hold Audio System

For Use With Analog & KSU-less Phone Systems

Specifications

Controls

Play/Stop
Select (up/down)
Menu
Volume (up/down)
Repeat Mode (one/all/shuffle)

Display

Playback Mode (play/stop)
Repeat Mode (one/all/shuffle)
Volume Setting
Internal Memory (on-board)
External Memory (SD Card)
ID3 Tag (track name 1 artist)
Running time of track and total track length
Track number playing and total number of tracks stored

Analog Phone Capability

Adds true "hold button" on-hold audio activation to ordinary analog and KSU-less phones.

Jacks

USB (1.1)
Audio Out (RCA)
SD Card
DC Power (12V)

Input

Integrated CD drive
USB
SD memory card slot

Output Power

8Ω - 4 volts peak-to-peak
600Ω - 8 volts peak-to-peak

Power

12VDC @ 1000MA
Source 110VAC, 60Hz UL/CSA power pack

Switches

Output impedance (8/600Ω)
Speaker (on/off)

Memory Capacity

Internal - 128 MB
External - Up to 1 GB (SD card)

Playback Capacity

Audio CD - 80 minutes
MP3 CD - 480 minutes
Internal memory - up to 128 MB (173 minutes sampled at 98kbps)
SD Card - up to 1 GB (4000 minutes at 32 kbps @ 32K rate)

Formats Supported

Via Integrated CD Drive:
• Audio CD
• MP3 Encoded CD
Via USB or SD Card:
• MP3
• WMA

Internal Conversion Sampling Rate

32kbps @ 32K

Physical

Size: 11 x 9" x 4.5" (LWD)
Weight: 4.5 lbs.

Includes

Digital Player/Recorder
USB Cable
AC Power Adapter
2 Cordless Phone Adapters (male)
2 Cordless Phone Adapters (female)
2 TEHMAs
2 Handset cords
2 Phone Line Cords
2 "T" Adapters
